Karen,

Here's the link to the historical data for the 21 CO&A Homes from the initial 104 submissions. John Gilbert or one of our contractors can help you if you have trouble accessing this database.

We have not had time to notice whether there are location issues with the data for organics (Jerry mentioned that from this morning's 8:30 meeting). But you can see what we have.

Rich

Subject: Dimock historical data

Below is the subscription information for the Dimock historical data. There's still a lot of duplicate data in there but it's a start. I had to make a few changes to the template project to increase two field sizes but I'll make sure John has that information. I included the scribe import maps for samples and lab results so you can figure out where I put things. Let me know if you have any questions.

Ex. 6 - Personal Privacy

Thanks-
Stephanie
